

Home computer running slower & slower? Running out of disk space? Error messages keep coming up? Advertisements keep popping up? Think you have a computer virus or spyware? Internet slow or doesn't connect? Want a wireless network? Wireless network never works? Hard drive crashed? How do I backup my data and photos? Do I need a new computer? E-mail acting up? Storm or lightning damaged your PC? Can't install a new device? Need HELP?

Welcome to

EmployeePC.com!

(A new service from Butler Automation Incorporated that's designed as an added employee benefit to affordably take care of Employee's Personal Computers of the Businesses and Churches we already service!)

The logo for EmployeePC.com features the text "EmployeePC.com" in a bold, black, sans-serif font. The text is centered within a red, horizontal oval shape that has a slight gradient and a shadow effect.

"Affordable Home Service for our Business and Church clients own Employee Personal Computers"
